Who cares about the consequences of gold/metallic mining?

Dear Editor,
The Virginia Mine Supervisor's Bureau has received more than two years of feedback from the mining industry on the potential impacts of gold mining in Virginia. The feedback has been overwhelmingly negative, with industry representatives expressing concerns over the environmental, economic, and social impacts of gold mining in the state. The feedback has also highlighted the need for robust regulatory oversight and effective enforcement of existing regulations to safeguard the environment and human health.

Sincerely,
[Name]

Bless our children, the government can’t

All individual columns and letters published on the opinion page are the opinion of the newspaper.

The only piece that is ever the opinion of the paper would be an editorial.
